Isaiah Swann is a second-year medical student in the [University of Virginia Medical-Scientist Training Program \(MSTP\)](#).

Before joining the UVa MD-PhD program, he attended [The University of Texas at Dallas](#), where he studied neuroscience and played baseball for the [Comets](#). Currently, he serves as one of three graduated student-athletes on the [NCAA Board of Governors](#) and works as an executive board member of his school's [Medical Society of Virginia](#) chapter. He founded a joint initiative between the UVa School of Medicine and UVa Athletics, and is deeply involved in mentorship. While passionate about research and medicine, he believes it's important to lead a fulfilled life outside of work; Swann enjoys spending his free time sampling local restaurants with friends, working out, making music, and binging tv shows.
