- Email: vickilynn.shanker@mountsinai.org Tele: 212-844-6897

Mount Sinai St. Luke's & West

- **Name of Site Director:** **Joseph A. Diamond, MD**
- Email: joseph.diamond@mountsinai.org Tele: 212-523-6521

CLERKSHIP INFORMATION SHEET

Mission Statement of Clerkship:

To help students achieve basic neurologic clinical competence, to stimulate their interest in neurology, to make them aware of recent advancements in the field, and to attract the most interested students into the field of Neurology.

Goals of Clerkship:

Consolidate the knowledge base and develop the skill set necessary to:

- Detect and characterize basic neurologic dysfunction
- Recognize indications for neurodiagnostic investigation
- Implement appropriate routine or initial urgent neurologic management and generate appropriate neurologic consultations

Objectives of Clerkship:

By the end of the clerkship students will be able to:

- Apply a clinical neurologic knowledge base which includes principles of:
 - neurologic sign detection
 - neuroanatomic localization
 - neuropathophysiologic identification
 - neurologic diagnostic test indication
 - basic neurologic therapeutics
- Establish rapport with neurologic patients
- Perform detailed neurologic history taking
- Perform a neurologic examination
- Recognize indications for, and utilization of, neurologic diagnostic investigations
- Formulate a conceptually-informed and clinically targeted differential diagnosis
- Recognize indications for, and implementation of, basic as well as, urgent neurologic interventions
- Recognize indications for requesting neurologic consultation
- Respect relevant ethical guidelines while managing patients with neurologic disorders
- Work as a part of the health care team
- Develop comfort providing patient care in different settings
- Develop an awareness of opportunities for self-improvement and enhance professional growth
