

## ERRATUM

Volume **86**, Number 1 (2001), in the article “Tibia Lead Levels and Methodological Uncertainty in 12-Year-Old Children,” by A. C. Todd, R. Buchanan, S. Carroll, E. L. Moshier, D. Popovac, V. Slavkovich, and J. H. Graziano, pages 60–65 (doi:10.1006/enrs.2001.4251): On page 62, in the first paragraph under Results, line 2, the first value was incorrect. It should be “1.3” instead of “3.1” The sentence should read “... 1.3, 1.4, 1.5, and 1.5  $\mu\text{g}$  Pb/g bone mineral ...” instead of “... 3.1, 1.4, 1.5, and 1.5  $\mu\text{g}$  Pb/g bone mineral ...” as printed.
