

Lecture Date		Topic
October 10, 2008	General introduction	Introduction to molecular biology
November 21, 2008	Advances in molecular medicine Part 1	Targeting the estrogen receptor in luminal breast cancer
December 19, 2008	Part 2	Targeting ErbB2 in ErbB2-like breast cancer
January 9, 2009	Discovering new targets Part 1	Tumor microenvironment
February 6, 2009	Part 2	Cell cycle
March 6, 2009	Part 3	Apoptosis
March 27, 2009	Part 4	Metastasis and tumor dormancy
April 24, 2009	Part 5	Inflammation and cancer
May 22, 2009	Part 6	Stem cells
June 19, 2009	Part 7	Brca1
