

Dates

June 6 – 7, 2009

Saturday: 8:30 am - 4:30 pm

Sunday: 8:30 am - 3:30 pm

Past conference attendee comments:

“This conference inspired me to deepen and continue the work I’ve been doing with acute care.”

“I am so thankful that such a highly regarded institution is bringing massage back into the hospital as necessary care.”

“All the instructors were very professional and provided me with so much knowledge.”

“This workshop is a must in understanding patients and their needs; I feel very fortunate to have had the opportunity to attend.”

HOSPITAL-BASED MESSAGE THERAPY FOR SERIOUSLY ILL PATIENTS

The Massage Therapy Program at the Hertzberg Palliative Care Institute, Mount Sinai School of Medicine, is offering training to licensed massage therapists interested in hospital-based massage therapy practice. This program will enable the massage practitioner to develop skills to work safely and effectively in the acute care setting with seriously ill patients.

The Faculty for this program are an interdisciplinary team of licensed massage therapists, advanced practice nurses and physicians who work in the nationally recognized palliative care program at Mount Sinai Medical Center in New York City.

Co-Directors:

JD Elder, BS, LMT
Massage Program Coordinator

Jane Morris, MS, RN, LMT
Massage Program Consultant

Diane Maguire, MPH
Education Program Manager

*“To cure sometimes, to relieve often,
to comfort always”*

support from the Balm Foundation*

WHAT YOU WILL LEARN

- ◆ Develop assessment skills for specific patient populations
- ◆ Formulate an effective care plan
- ◆ Treat patients with chronic progressive disease utilizing modified massage techniques
- ◆ Understand the hospital environment as a setting of care
- ◆ Consider other complementary modalities useful in reducing stress, promoting comfort and relaxation
- ◆ Identify strategies supporting self care

WHO SHOULD ATTEND

This is a two-day program for ***licensed or nationally certified massage therapists*** interested in learning to work with seriously ill patients and their families across care settings.
