

**Mount Sinai Biorepository Cooperative (MSBC)
COMMERCIAL USE POLICY AND DISCLOSURE**

The MSBC will neither encourage nor restrict commercial access to its specimens.

If an investigator conducting research with MSBC specimens previously distributed under a not-for profit application, wishes to switch their utilization to commercial use, he or she must re-submit an application to the MSBC requesting permission for this switch. At that time, the MSBC will be given the option of either granting or denying permission for such utilization, dependent upon the stated wishes of the tissue or fluid donor.

Please answer the following question below indicating if your research with MSBC specimens has commercial implications:

Will the specimens you receive from the MSCCB be used for any commercial purposes?

Yes / No Comment: _____

PLEASE READ AND SIGN THE FOLLOWING STATEMENT:

As the Investigator of Record, I understand and agree to the terms specified in the MSBC Commercial Use Policy. I also agree that my disclosure of commercial interests has been accurately reported on this application. If at some point, however, my commercial use status changes, I will promptly inform the members of the MSBC.
