

Doctoral Internship in Clinical Psychology
Mount Sinai Department of Rehabilitation and Human Performance

Internship Program Admissions

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program’s policies on intern selection and practicum and academic preparation requirements:

Our internship takes place within a Department of Rehabilitation Medicine, and our clients are patients who have experienced a recent new-onset of a disability or significant illness (such as stroke, traumatic brain injury, spinal cord injury, limb loss, multiple sclerosis, or cancers affecting the nervous system). As such, we highly value clinical, educational, and research experiences that will serve our interns in their work with this demanding population. Prior experience in the administration and interpretation of neuropsychological assessment tools is required. Prior experience in a rehabilitation medicine and/or health psychology settings is highly valued. Traditionally a minimum of 500 hours of combined intervention and assessment experience is required prior to start of the internship; flexibility in interpreting this standard will be used for the current application cycle, given that the pandemic has impacted many students’ training opportunities. Candidates from minority and/or disability backgrounds are strongly encouraged to apply.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	Yes	Amount: 500 hours of combined intervention and assessment experience
Total Direct Contact Assessment Hours	Yes	

Describe any other required minimum criteria used to screen applicants:

Prior experience in the administration and interpretation of neuropsychological assessment tools is required.
